## Present Moment Productions Announces the Release of the Self-Help Book, Ordinary to Extraordinary: Creating the Life that YOU Deserve

*What if you were able to connect and manifest your true desires, those that are aligned with your highest self?*

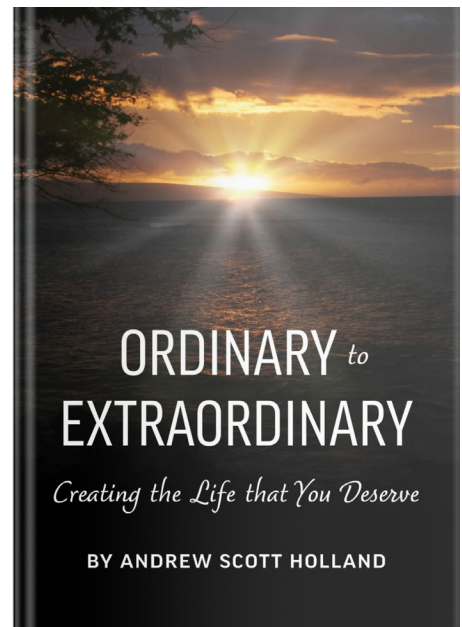

Within the pages of “Ordinary to Extraordinary: Creating the Life that YOU Deserve,” you will discover daily practices that will change your life. These practices help you peel away years of conditioning and limiting beliefs. At the end of each chapter there are activities to help you implement these practices in the new life you are creating.

Whether you are just starting your journey or are a ways down the path, this book meets you there. Learn how accepting responsibility enables you to take your power back.

If you have ever asked yourself, Is this all there is? Then the time is NOW to open the door to infinite possibilities. Pick up a copy of my book and journey with me to an extraordinary life.
